

Shape Your Impact Across Primary Care:

Nye Bevan Programme – Intake 12

For Primary Care only

Applications are now open for a Primary Care intake of the Nye Bevan Development Programme. This intake is aimed at registered clinical healthcare professionals working in primary care who are currently operating in senior leadership roles and aspire to progress into senior clinical, system or board-level leadership roles. This includes:

- GPs, nurses, pharmacists, dentists, AHPs and other registered clinical professionals
- Senior clinical leaders with experience of leading beyond their own discipline or core portfolio
- Leaders ready to influence across organisation, neighbourhood, place, system, regional or national levels.

We are particularly interested in self-nominations from registered clinical professionals working in areas such as arm’s length bodies, regulation, digital, innovation and academia.

The Nye Bevan programme is delivered in partnership with KPMG, PwC and other leading experts. The programme builds resilience, confidence and capability while developing senior leadership behaviours, strategic influence, professional networks, system impact and gaining recognised accreditation - leading to an NHS Leadership Academy Award in Executive Healthcare Leadership.

Apply Now

Deadline: Monday 6th July 2026
